

EDUCATION

McGill University, Faculty of Science
Bachelor of Science, Computer Science

Montreal, QC
Aug 2022 – May 2026

- Cumulative GPA: 3.86 / 4.00
- Coursework: Applied Machine Learning, Reinforcement Learning, Computer Networks, Database Systems, Algorithms and Data Structures, Data Science, Operating Systems, Software Design, Statistics

WORK EXPERIENCE

Hydro Ottawa

Ottawa, ON

Summer Student – Finance Department

May – Aug 2025, May – Aug 2024

- Supported the 2026 rate application by collecting, analyzing and preparing data for intervenor responses
- Automated forecasting scenarios with custom macros, reducing development time by over 200%
- Used Hubble for JD Edwards to query databases and generate detailed reports
- Built dynamic, formula-driven spreadsheets that improved accuracy and efficiency of financial models

Tavern on the Falls

Ottawa, ON

Summer Employment – Assistant

June – Aug 2023, June – Aug 2022

- Provided assistance to other staff, gaining experience in different fields of the service industry
- Ensured customers were satisfied and received their orders in a timely manner

Mercury Filmworks

Ottawa, ON

Student Internship – IT Department

Aug 2021

- Updated and prepared new computers for employees
- Organized technology related items in the office

RESEARCH EXPERIENCE

Prometheus Lab, McGill University

Montreal, Canada

Undergraduate Volunteer – CarBot Project

Sep – Dec 2025

- Developed a safety feature for a server-controlled CarBot by implementing automatic collision detection and prevention using LiDAR sensors
- Designed and implemented an adaptive speed-control algorithm that exponentially slows CarBot in tight spaces to improve navigation accuracy

PROJECTS

Deal-to-Dish

McGill CodeJam 15

- Developed a full-stack service that automates meal planning by scraping grocery flyers for current discounts
- Implemented a Python backend pipeline with **Selenium** data scraping and **SQLite** recipe matching
- Created a dynamic UI with **TypeScript** and **Tailwind CSS** with a custom one-command launch script

Personal Portfolio Website

- Built a responsive personal portfolio using **React**, **Tailwind CSS** and **Vite** for optimized performance

MyCourses Content Downloader

McGill McHacks 14

- Designed a tool enabling graduating students to bulk-download university course content efficiently
- Automated navigation and file retrieval using **Selenium** and implemented a GUI with **NiceGUI**

SKILLS

Languages: Python, Java, C, C++, R, SQL, MATLAB, HTML, CSS, JavaScript, OCaml, Bash

Machine Learning: PyTorch, MLP, CNN, RNN, LSTM, Hyperparameter Tuning, Fine-Tuning (BERT, ResNet)

Developer Tools: Git/GitHub, AWS, Selenium, Scrapy, Pandas, Polars, Matplotlib, Seaborn, React

Software: Microsoft Office; Microsoft Excel (Macros, Excel Automate, Power Query)
